Study at IIT among a diverse student body in one of the world’s greatest cities—Chicago! The International Visiting Program is for students who are enrolled as a full-time undergraduate student in the United States or overseas, and who are interested in spending a semester or a year at IIT.

Chicago has been such a great city to experience in my academic and personal life. Living in this city has helped me create more responsibility as an adult and has opened my eyes to the world. Studying at IIT has been the best decision I’ve made in my young life. The professors here really care and want you to learn deeply about your subjects. While challenging, it has made me a better Chemical Engineer. I’m excited to go back to my country with this new found knowledge.

— VISITING STUDENT, PEDRO AMORIM, Chemical Engineering from Brazil

International Visiting Student Program

Study at IIT among a diverse student body in one of the world’s greatest cities—Chicago! The International Visiting Program is for students who are enrolled as a full-time undergraduate student in the United States or overseas, and who are interested in spending a semester or a year at IIT.

- College of Architecture
- College of Science
- Stuart School of Business
- Lewis College of Human Sciences
- School of Applied Technology

For a complete list of majors please visit our website http://www.iit.edu/undergrad-admission/study/

IIT’S IPRO PROGRAM, IDEA SHOP, AND iPADS

At IIT we believe in teamwork, collaboration, and partnerships. In IIT’s undergraduate Interprofessional Projects (IPRO) Program, students from different academic majors work together to find innovative ways to solve real-world problems. The Idea Shop, our new 13,000-square-foot collaborative home to the IPRO program, features open meeting spaces, Mac mini-powered projectors, 3-D rapid-prototyping machines, a laser cutter, and workspace—all designed to foster creativity and innovation. And with the iPad that is given to all first-year undergraduates, including visiting students, communicating with your professors and fellow students just got easier. It’s a tech-focused tool for a tech-focused university.

IIT WELCOMES 75–100 VISITING STUDENTS EACH YEAR REPRESENTING COUNTRIES FROM ALL OVER THE WORLD.

HERE ARE THE TOP 10 COUNTRIES FROM WHICH WE RECEIVE STUDENTS:
SOUTH KOREA, SPAIN, SWEDEN, GERMANY, CHINA, BRAZIL, FRANCE, MEXICO, FINLAND AND SINGAPORE
HOW TO APPLY

Apply as an International Visiting Student

1. Visit apply.iit.edu and complete the application for admission. There is no application fee to apply.

2. After completing the application, visit http://www.iit.edu/undergrad-admission/apply/international-transfer.shtml and follow all steps 2 through 7 of the admission requirements for International Transfer Students.
