Transfer Articulation Day
Friday, April 26, 2019 9:30 a.m. - 2 p.m., McCormick Tribune Campus Center

Welcome and Articulation Updates, 10 a.m.-11 a.m.

Pritzker Club

Note: Learn what’s new at Illinois Tech—the culture of the university, the kinds of students we’re looking for, our 40 STEM-focused degree programs, transfer equivalency and advising resources, new articulation initiatives, our FastForward Partnership Program, and how to help your students apply and find their fit.

Explore IPRO, 11 a.m.-Noon

Hermann Hall

Note: Illinois Tech was a pioneer in launching our one-of-a-kind Interprofessional Projects (IPRO) Program in 1995. IPRO joins students from various majors to work in teams to solve real-world problems, often on behalf of corporate sponsors. IPRO courses are project-based experiences that teach creativity, design thinking, and leadership, and uniquely prepare Illinois Tech students to excel professionally upon graduation. In this session you will interact with some of the talented students in IPRO and learn more about their fascinating projects.

Lunch, Noon-12:45 p.m.

The Commons

Note: Taste the cuisine of our all-you-can eat student dining hall, The Commons, and get to know your colleagues, our admissions staff, and the students at Illinois Tech.

Campus Tour, 12:45 p.m.-2 p.m.

Location

Note: Illinois Tech’s urban Mies Campus has really cool, cutting-edge student spaces, and we want you to get an inside look! Our student ambassadors will lead you on a walking tour of campus, during which you’ll also get to explore our State Street Village residence hall, Wanger Institute for Sustainable Energy Research (WISER), and our Idea Shop, where students (and you!) get to use our 3-D printers and other rapid-prototyping equipment to bring their innovative ideas to life.
